

# PROPANE EQUIPMENT INITIATIVE

## DISTRIBUTOR PARTICIPATION FORM

### AGREEMENT

Pursuant to Texas Administrative Code 16 TAC §15.101, et seq., and 30 TAC §114.1, Subchapter K, I understand and agree to all rules and conditions for participation in the Railroad Commission's Propane Equipment Initiative Program as a company that sells and/or maintains propane motor vehicles. I understand that as an officer of a company that sells and/or maintains propane motor vehicles and holder of an RRC Category E or L License, I am responsible for ensuring that an accurate, eligible invoice is generated for the vehicle owner. I understand that my maintenance personnel must hold a current, valid Railroad Commission LP-gas engine fuel certification. If I accept an assignment of the grant payment from an applicant, I understand the applicant is not responsible for any difference in grant amount between the date the applicant signs the assignment form and the date the application is approved. I further agree to provide to an applicant a copy of the Railroad Commission guidelines (FAQ) explaining the Propane Equipment Initiative Program before asking an applicant to assign the grant payment. I affirm that signing a Propane Equipment Initiative Program application affirms that the equipment is eligible under the Program.
